Introduction

Hello

We are thrilled to introduce our project for the 4th semester. Our team, comprised of Muhammad Hassan, Ebad, Abdullah, and Ahtasham, proudly presents the Rolex app – an ultimate resource for comprehensive information on Rolex Watches.

PROJECT REQUIREMENTS

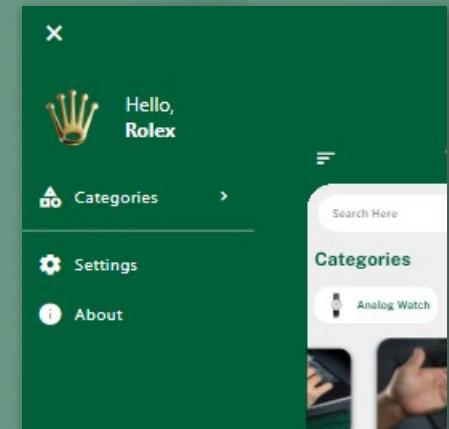

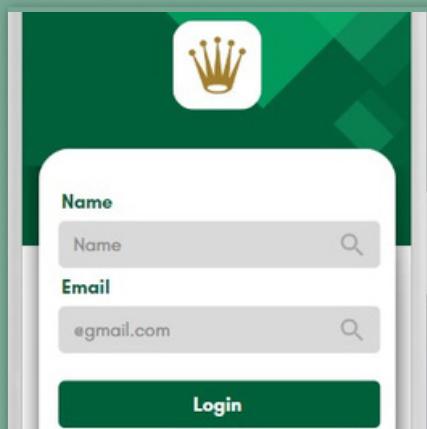

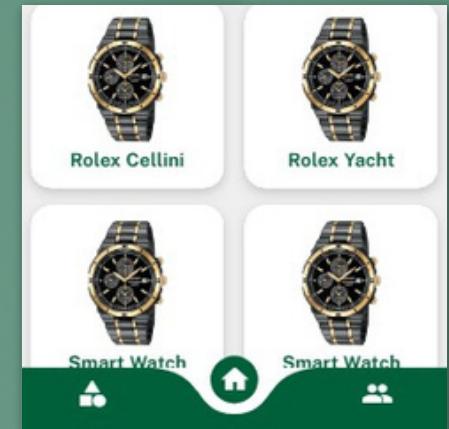

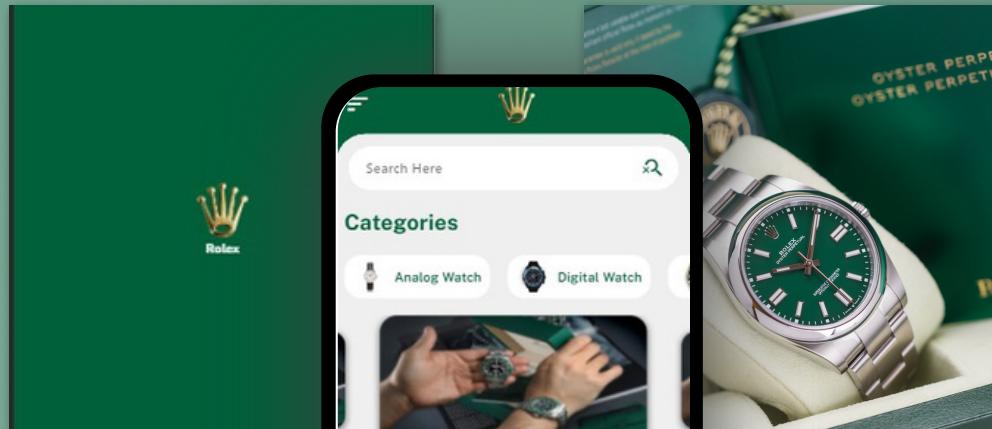

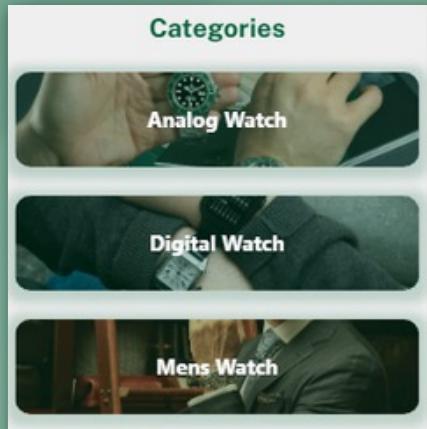

The Rolex app is one place to get all information regarding Rolex Watches. Inside app will have the information of various categories and models of Watches offered by Rolex. It will consist various categories, like Analog Watches, Digital Watches, Men's Watches, Women's Watches, and Couple Watches etc. Accordingly the products will be listed in the categories. Selecting any product should display the detailed specifications of the Watch with its price.

App should have proper listing of Watches in alphabetical order also.

Rolex App will help to find the watch and go through their specifications.

APPLICATION OVERVIEW

ADMIN PANEL

The Admin Panel interface is designed with a dark theme and green accents. It includes a sidebar navigation with links for Dashboard, Profile, Products, and Logout. The main content areas feature various components such as cards for sales data, tables for product lists, and forms for data entry.

View All products

ID	Name	Description	Poster_Image	Categories	Price	Rating	Option
10	Rolex Day-Date	The Rolex Day-Date, also known as the "President," is a symbol of prestige and elegance. Known for displaying both the date and day of the week, it is crafted from luxurious materials, including the iconic President bracelet. This watch is a statement of sophistication and is often associated with influential figures.		Analog	35,000	1	<button>DELETE</button> <button>UPDATE</button>
	The Rolex Submariner	The Rolex Submariner is a classic diver's watch, known for its timeless design and exceptional functionality. With a robust case and a waterproof rotating bezel, it's the perfect companion for underwater adventures. The iconic Mercedes hands and luminous hour markers ensure visibility in any conditions.		Analog	655	1	<button>DELETE</button> <button>UPDATE</button>

THANK YOU

for reviewing our Rolex watch app project. We've put in significant effort to create an appealing and user-friendly experience, highlighting the elegance of Rolex watches. We hope users enjoy the seamless interface, and we appreciate your feedback and support as we aim for excellence in design and functionality.
